MANASA KULAL

Third-Year B.E. Student | Artificial Intelligence & Machine Learning (AI & ML)

Mangalore, Karnataka, India | +91 9483649608 | kulalmanasa93@gmail.com
LinkedIn: https://www.linkedin.com/in/manasa-kulal-204542434

PROFESSIONAL SUMMARY

Passionate Third-Year B.E. Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning (AI & ML) at AJ Institute of Engineering and Technology, Mangalore. Strong foundational knowledge in Python, C programming, machine learning methodologies, and database systems. Experienced in creating AI-driven translation tools, NLP-powered chatbots, and web management systems. Seeking internship opportunities to contribute analytical problem-solving skills and expand practical engineering experience.

EDUCATION

AJ Institute of Engineering and Technology, Mangalore | 2024 - 2028 (Expected Graduation)
Bachelor of Engineering (B.E.) - Computer Science & Engineering (AI & ML)
Current Academic Standing: Third-Year Student

SKILLS & COMPETENCIES

- **Core Languages:** Python, C Programming
- **AI & Machine Learning:** Artificial Intelligence, Machine Learning, Text Preprocessing, TF-IDF, Cosine Similarity
- **Web & Database:** HTML, CSS, JavaScript, DBMS, MySQL, PHP, XAMPP
- **Soft Skills:** Communication, Analytical Problem-Solving, Teamwork, Time Management, Creative Thinking

ACADEMIC & TECHNICAL PROJECTS

Language Translation Tool | **Tech: Python, AI & NLP Techniques**
- Developed a Python-based language translation application designed to bridge communication gaps across languages.
- Implemented AI-related techniques to process multilingual text inputs and generate accurate translated outputs.
- Focused on modular script architecture and user-friendly interaction design.

General FAQ Chatbot | **Tech: Python, Text Preprocessing, TF-IDF, Cosine Similarity, Gradio**
- Built an intelligent automated FAQ chatbot to handle query matching and deliver contextually relevant answers.
- Leveraged text preprocessing pipelines, TF-IDF vectorization, and cosine similarity algorithms for ranking responses.
- Designed an interactive and clean web-based demonstration interface using Gradio for seamless user testing.

Blood Management System | **Tech: PHP, MySQL, XAMPP, HTML, JavaScript**
- Engineered a web-based blood donor management system to connect donors with urgent recipient needs.
- Implemented relational database schemas in MySQL via XAMPP to track donor availability, blood types, and requests.
- Designed responsive front-end forms with HTML and JavaScript for validated user registrations and record updates.

CERTIFICATIONS & TRAINING

Infosys Springboard Certifications
- Completed comprehensive courses covering Python programming, Artificial Intelligence & Machine Learning fundamentals, and foundational software concepts.

LANGUAGES

• English (Professional Working Proficiency) | • Kannada (Fluent) | • Tulu (Native) | • Hindi (Conversational)
